

## Sahara Sam's by the Numbers

- 13-acres - The size of the Sahara Sam's site on Route 73 in West Berlin, NJ.
- 58,000 - The total square footage of the Sahara Sam's complex, which houses multiple water rides, attractions, party rooms, Sammy's Arcade and redemption area, locker and changing rooms, and administrative space.
- 12 - Months a year Sahara Sam's will be open.
- 365 - Number of days a year Sahara Sam's will be open.
- 11 - The current number of rides and water amusements featured at Sahara Sam's.
- 1,300 - Total length in feet of slides featured at Sahara Sam's.
- 286,000 - How many gallons of water it takes to make Sahara Sam's a true desert oasis.
- 1,000 - The gallons of water poured from Sahara Sam's giant tipping bucket. Watch out, it makes a big splash!
- 45 - The indoor height in feet of the Mount Kilimanjaro family raft ride, one of Sahara Sam's premier attractions.
- 420 - Total feet in length of the Congo Bongo Lazy River Ride.
- 100 - The total number of FlowRider surf simulators currently in operation around the world.
- 1 - The only Flow Rider surf simulator in New Jersey --- the place to find it? Sahara Sam's.
- 84 - The daily temperature in degrees Fahrenheit all year round at Sahara Sam's, regardless of the weather outside.
- 11,500 sq. ft. - The size of Sahara Sam's one-of-a-kind retractable roof.
- 4 natural gas fire 454 cubic inch GM blocks, producing 300 kilowatts of electricity, with no byproduct. What's that mean? Sahara Sam's is green!

Add up all of these numbers and what do you get? New Jersey's latest, greatest, wettest and wildest water park attraction, Sahara Sam's Oasis Indoor Water Park!
